

Drone Deploy

- Free 30 day trial up to 10 maps and models
- 99.00\$/mo or 999.00\$/yr ([Plans](#))
- Map + 3D is only available when you pay
- This software is able to be placed onto an Enterprise system
- Using for 3D is just an option for this software. It focuses on other mapping as well.

Different Apps can connect and take the data from Drone Deploy.

- A huge component is [Fieldscanner](#); makes it possible to scan ag fields quickly.
- Here is an example of the [3D model](#) being used.
- From the site:
"Get data outputs in **within hours** by using our bank of dedicated supercomputers. DroneDeploy can scale with your business, processing as many concurrent jobs as your business needs."

There is also flexibility as to which output type you can use:
